Education

SGSITS

Bachelor of Technology in Information Technology

july. 2019 – May 2023

Indore, Madhya Pradesh

Relevant Coursework

- Data Structures
- Database Management
- Systems Programming
- Software Methodology
- Computer Network

Experience

Engineer Philosophy Web Services Pvt.Ltd

Feb 2024 – Present

Software Engineer

Indore, Madhya Pradesh

- Developed data-driven web applications using Python, Angular, REST APIs, and SQL databases.
- Built and integrated REST APIs with Angular applications for data processing and application workflows.
- Worked with SQL databases to store, retrieve, and manage application data.
- Developed responsive and reusable UI components using Angular.

Zehntech, India

Aug 2023 – Dec 2023

Junior Software Engineer

Indore, Madhya Pradesh

- Built responsive UI components using HTML, CSS, and JavaScript.
- Contributed to a client project in React.js, implementing features and UI logic.
- Explored and integrated chart libraries for dynamic data visualization.

Projects

MAPOG Route Compass | *Angular, Angular Material, REST APIs*

Feb 2024

- Developed a data-driven route planning application using Angular, REST APIs, and Angular Material for map-based visualization.
- Implemented route logic, distance and bearing features, API integration, export functionality, and UI customization.

Territory Management | *Angular, REST APIs, Ag Grid, SQL*

May 2024

- Developed a data-driven territory management application using Angular, REST APIs, and Ag Grid for account distribution and hierarchical data visualization.
- Implemented data validation, reporting, charts, and account management workflows with API-based data retrieval and processing.
- Used Technologies: Angular, REST APIs, Charts, Ag Grid.

Customer Targetting | *Angular, REST APIs, Ag Grid*

Dec 2024

- Developed a data-driven customer targeting application using Angular, REST APIs, and Ag Grid for customer segmentation and prioritization.
- Implemented targeting workflows, data validation, API integration, and visualization using Chart.js to support customer analysis and decision-making.
- Used Technologies: Angular, REST APIs, Chart.js.

Way2Rentals | *Next.js, REST APIs, JavaScript*

Feb 2026 – Jun 2026

- Developed a responsive rental platform using Next.js and React.js to provide users with an intuitive property browsing and rental experience.
- Implemented reusable UI components, property listing workflows, search and filter functionality

Technical Skills

Languages: Python, C, C++, HTML/CSS, JavaScript, SQL, Object OOP(Object Oriented Programming).

Frontend: Angular, JavaScript, Typescript, Nextjs HTML/CSS, React.js.

Database: SQL, MySQL

Technologies/Tools: Cursor, copilot, Angular Material, Bootstrap, Ag Grid, NgRx, RxJS, Chart.js, Git, GitHub, Linux, VS Code, Postman.

Leadership / Extracurricular

- Member of club kshitij in SGSITS Collage Indore.
- Selected for House Captain in school to lead a group of 60+students.
- Got a certificate from SuvenConsultancy Pvt.Ltd for task completion in limited time.
